

Welcome

Welcome to this public exhibition for the proposed West Springfield Solar Farm and Battery and Energy Storage System (BESS) development, previously known as Peterhead Solar Farm, on land west of Springfield, KY15 5RE.

93,000
individual solar panels

49.9MW
export capacity

12,500
homes powered

The proposal

West Springfield Solar Farm and BESS will comprise approximately 93,000 individual solar panels with an export capacity of 49.9MW and a Battery and Energy Storage System (BESS) with a capacity of 49.9MW.

Your feedback

The first public exhibition was held in March 2023 by Elgin Energy, which was then developing the site. We've used the feedback from that event to inform and update our proposal. We've made changes to the layout, added information about the Battery Energy Storage System (BESS) and community benefit scheme and more.

LOCATION PLAN

Thank you for all your input so far, and we look forward to hearing your comments today.

About us

West Springfield Solar Farm and BESS, owned by TRIO Power Limited, is being developed by BLC Energy, a Perthshire-based renewable energy developer. TRIO Power is owned and funded by the Octopus Renewable Infrastructure Trust (ORIT), a fund managed by Octopus Energy Generation (OEGEN) and part of the Octopus Energy Group. OEGEN is one of Europe's largest renewable energy investors, managing more than 230 large-scale green energy projects with a combined capacity of 3.25GW.

If you have any comments or questions about any aspect of the project please talk to a member of the project team or visit our website.
