

# WHO WE ARE

**BLC Energy** is a renewable energy development company specialising in solar PV and co-located battery storage projects across the UK.

Established in 2023, our team was formed to manage a target pipeline of 500MW of solar and BESS projects in development across the UK. With more than 60 years' collective industry experience, we have been involved in some of the UK's most successful renewable energy developments.

BLC Energy is currently developing 11 solar and battery projects across the UK of which 5 are in Scotland and will help the country achieve its target of 4-6GW of solar deployed by 2030.

**Developing 11 solar & battery projects in the UK**

**Contributing to Scotland solar target of 4-6GW by 2030**

## OUR PARTNERS

### OCTOPUS RENEWABLE INFRASTRUCTURE TRUST (ORIT)

Cossans is developed by BLC Energy and owned by TRIO Power Limited. TRIO is backed by the Octopus Renewable Infrastructure Trust (ORIT), a fund managed by Octopus Energy Generation (OEGEN). OEGEN is one of the largest renewable energy investors in Europe, managing more than 230 large-scale green energy projects with a combined capacity of 3.25 GW.

### ITPENERGISED

ITPEnergised is a leading consultancy providing expert environmental, energy, and engineering services, with a strong focus on renewable energy projects. They have worked extensively across the UK on a wide range of projects, ensuring that developments meet the highest standards in sustainability and environmental management.

With considerable experience in managing the environmental aspects of large-scale developments, ITPENERGISED brings a deep understanding of both the technical and regulatory requirements involved. Their approach is to balance project objectives with environmental protection, ensuring that developments like Cossans Solar & BESS Development contribute positively to the local environment and community.
