Proposed Mitigation Planting

Native Trees
Planted in groups of 3-5 (approx 6-8m in height at year 10)

- Acer campestre 25% (300-350cm RB standard tree)
- Crataegus monogyna 25% (300-350cm RB standard tree)
- Quercus robur 25% (300-350cm RB standard tree)
- Sorbus aria 25% (300-350cm RB standard tree)

Native Hedgerow
6 plants per metre in double staggered rows (maintained to 3m in height)

- Acer campestre 15% (60-80cm BR)
- Alnus glutinosa 15% (60-80cm BR)
- Corylus avellana 10% (60-80cm BR)
- Crataegus monogyna 55% (60-80cm BR)
- Rosa canina 5% (60-80cm BR)

Native Woodland
1 plant per square metre (approx 4-7m in height at year 10)

- Acer campestre 3% (250-300cm feathered stock)
- Cornus sanguinea 15% (60-80cm BR)
- Crataegus monogyna 10% (60-80cm BR)
- Fagus sylvatica 1% (250-300cm feathered stock)
- Malus sylvestris 15% (60-80cm BR)
- Prunus avium 15% (60-80cm BR)
- Prunus spinosa 15% (60-80cm BR)
- Quercus petraea 4% (250-300cm feathered stock)
- Rosa canina 10% (60-80cm BR)
- Sorbus aria 2% (250-300cm feathered stock)
- Viburnum lantana 10% (60-80cm BR)

Meadow Seeding
MG5 Meadow Mix - Scotia Seeds

Wet Meadow Seeding
Wet Meadow Mix - Scotia Seeds
